### The Incident

On the evening of 11th January 1999, at approximately 9:47 p.m., Roger Sylvester was restrained outside his home on Summerhill Road Tottenham N.15, by eight police officers from Tottenham Police Station. Roger sustained numerous injuries during his ordeal and never regained consciousness.

### Why Do We Need Witnesses?

There are still many unanswered questions surrounding the circumstances of Roger's death.

There may be witnesses who saw what happened on that night. Maybe you, or someone you know, saw something that can help get to the truth about what really happened.

**If so, we need your help.**

### What We Know

On 11th January at 7:30 p.m. Roger left work in good health. He visited friends close to where he lived. On his way there he telephoned a friend to say he was being followed by the police.

Following his visit he was accompanied by a female friend part of the way home.

He then walked home down Summerhill Road in Tottenham.

At 9:10 p.m Roger exchanged greetings with a neighbour outside his home.

We are unclear about what happened between 9:10 p.m. and 9:47 p.m. when the police arrived at his doorstep.

Roger was 30 a year old Black man.

He was 5 ft 11 inch's tall with a large frame and closely cropped hair. On that evening he was wearing a distinctive navy blue 'Nike' cap and was carrying two lightly coloured plastic carrier bags.
